PROJECTS

Dar Al-Hoqooq
Dar Al-Hoqooq (دار الحقوق لخدمات الأعمال | dar-7qook) is a bilingual platform for company formation, legal, and business services in Saudi Arabia with WhatsApp requests and full admin control panel.

Course platform
An online course platform for browsing and enrolling in courses with a responsive UI and scalable frontend architecture designed for smooth learning and future feature expansion.

NutraPeak
Built NutraPeak, a full-featured sports supplements e-commerce app with product catalog, filters, cart, checkout, wishlist, coupons, blog, and user system using React, TypeScript, Redux Toolkit, and Tailwind CSS.

RAG System
An AI chatbot that lets users upload files and ask questions to get accurate, context-based answers, with a clean UI and scalable architecture for future enhancements.

AI-Driven Healthcare System
Built an AI healthcare platform with React and Laravel featuring role-based access, appointments, doctor search, dashboards, and AI-based disease detection with patient history tracking.
